{In Archive} Fw: January 17, 18 and 19 sampling conditions for bacti samples

Stephen Tyahla to: Katherine Baylor

01/19/2011 10:06 PM

This message is being viewed in an archive.

Kathy, this alludes to a key milestone.
On Saturday, our first day on site, we/ State collectively instructed WM to cease pumping from lower detention basin to ocean by 10:00 a.m. Sunday, which they did, As you'll see in my yet to be written SITREP for today, starting yesterday and continuing today, city is extracting water fr the cell 6 ("upper ponds," "lake Tim") and discharging offsite at WWTP. And THAT is the present plan to empty liquid from Cell 6 pet WM!

Subject: January 17, 18 and 19 sampling conditions for bacti samples
=====

Please note that the bacti samples for the Farrington Highway sites and the Ocean Outlet site for Monday, January 17 thru today, Wednesday, January 19, were taken from standing water, not flowing water like previous days. This is because pumping stopped on Sunday, January 16.
